ALLWOOD SHEDS The Eco-Friendly Shed

These attractive Oregon Shiplap buildings blend into any environment. We have a number of size options available for the many uses.

These buildings come in a kit-set form with Assembly instructions and come with all the fixings components necessary to erect your Shed. A prefinished floor can also be supplied so all you have to do is bolt the floor together and you are ready to stand your frames.

We can also fully assemble. The modular components are lined with building paper and all screw together forming the walls, this allows doors and windows to be placed on any wall.

Allwood Sheds have an extensive range of Timber Sheds. Site preparation is minimal as our Shed will sit on Bearers. Our Shed can be customised to suite your requirements.

Assembly available Nelson, Christchurch,
Wellington, and Auckland.
